

- ☒ CW dat code -> GLAHF
- ☐ seiche detector!
- ☐ better GLSEA lake-wide water temps plots (plotly)
 - ◊ statistics for subregions (GLAHF or CW mask?)
 - ◊ turn years on or off
- ☐ CW code inventory
- ☐ WRITE (while you have the chance!)
 - ◊ intro and methods for subregional paper
 - ◊ consider pub costs if the lights go out
 - ◊ revisit circ plots for possible letter? (Dan, David, Eric?)
- ☐ CW plotly revisit
- ☐ SWOT plot wlev vs gauges
- ☐ obsidian git
- ☐ brave sync
- ☐ printers
- ☒ masspipe code dev plan
- ☐ plot ships from noaaports

soon:

- ☐ spec rad learn/test (plan for inland lake)
- ☐ consider cloud storage for **FILES** too
- ☐ SAR NRCS naming and open ticket
- ☐ double check on SAR imagery being updated
- ☐ followup on icecon

July 7 and July 10th “marks” from congress Senate mark more important

CW shutdown - SL funding runs out in September: - *If* we provide a year of funding use to **smoothly** transition/sunset products. - language banner: “service will be discontinued on . . .” - priority for preserving existing datasets

- ☐ develop plan and timeline
- ☐ data management archiving plan
- ☐ selection of prodcuts to re-brand under GLERL
